NOTICE OF RATE CHANGE REQUEST

On June 29, 2018, Golden Spread Electric Cooperative, Inc., (GSEC) filed with the Public Utility Commission (commission) an Application For Approval of Transmission Cost of Service and Wholesale Transmission Rates Pursuant To Substantive Rule 25.192(g). The proceeding has been assigned Docket No. 48500. GSEC's Application seeks to establish a new wholesale transmission rate for GSEC based on total transmission rate base of \$6,100,271, consisting of transmission facilities in ERCOT owned by GSEC. GSEC is requesting approval of wholesale transmission rates based on a transmission cost of service ("TCOS") of \$2,424,741 and a wholesale transmission rate of \$0.036043 per kW per year, based on the 2017 ERCOT 4CP demand of 67,273,101.059 kW.

GSEC, with the consent of its member, Taylor Electric Cooperative, Inc. (Taylor), also seeks to reduce Taylor's TCOS to \$0.00. In 2012 Taylor sold all of its transmission assets to GSEC with the approval of the commission in Docket 40596. GSEC's TCOS and Taylor's TCOS have not previously been adjusted to reflect the transfer of Taylor's transmission facilities.

On a combined basis, GSEC and Taylor have a commission approved TCOS of \$1,501,121. The requested revenue requirement is an increase of \$923,620 or 61.5% over the combined commission approved revenue requirements of both entities. In Docket No. 39024, GSEC's last transmission rate case, the commission approved an ERCOT transmission rate base of \$2,543,566 and an ERCOT TCOS revenue requirement of \$853,063. The primary change in GSEC's assets is the acquisition of Taylor's transmission facilities consisting of approximately 32 miles of high-voltage transmission line, 12 substations with high-side facilities, and associated SCADA equipment, as approved in the sales transfer or merger ("STM") filing in Docket No. 40596.

GSEC intends to implement the transmission rates approved in this proceeding as soon as revised wholesale transmission rates are approved by the commission.

Because the Application requests a wholesale transmission rate to reflect GSEC's invested capital, affected customers include all distribution service providers that pay wholesale transmission charges pursuant to the commission's Substantive Rules. A complete copy of GSEC's Application is available for inspection at the offices of McGinnis Lochridge, 600 Congress Avenue, Suite 2100, Austin, Texas 78701. Please contact Campbell McGinnis at (512) 495-6000 for further information or to obtain a copy of the application.

Persons who wish to intervene in or comment upon these proceedings should notify the Public Utility Commission of Texas as soon as possible, as an intervention deadline will be imposed. A request to intervene or for further information should be made to the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326 and reference Docket No. 48500. Further information may also be obtained by calling the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936-7136 or toll free at (800) 735-2989. GSEC has requested an intervention deadline of August 13, 2018.
